

System Ultra, Configuration A

Designer: **Poul Cadovius**

Manufacturer: **DK3**

£5,772

DESCRIPTION

System Ultra, Configuration A by **Poul Cadovius** for **DK3**.

In 1957, Poul Cadovius unveiled the System Ultra, an evolution of his iconic Royal Shelving system. This storage solution optimises space by lifting furniture from the floor to the walls, resulting in a more spacious environment.

The system's standout element is its slim shelves, featuring a unique wave-like design that attaches to the rails through hangers in brass, black or steel.

Configuration A includes four wall-mounted rails, six shelves with a 22-inch diameter, and three cabinets. With a blend of open shelving and concealed cabinets, this unit provides the flexibility to showcase and hide your items.

If you require any assistance designing your shelving system please either **contact us** or use the System Ultra configurator **here**.

DIMENSIONS

225w x 35d x 200cmh

4 x Rails: 3w x 1.9d x 200cmh
