

System Ultra, Configuration B

Designer: **Poul Cadovius**

Manufacturer: **DK3**

£1,094

DESCRIPTION

System Ultra, Configuration B by **Poul Cadovius** for **DK3**.

Poul Cadovius introduced the System Ultra in 1957 as a space-efficient storage solution. This innovative approach involves elevating furniture from the floor to the walls to create a more spacious environment.

The system's standout element is its slender shelves that boast an exquisite wave-shaped edge profile that connect to the rails through hangers available in either brass, steel or black.

This unit comprises two wall-mounted rails and four shelves with a 22-inch diameter. You have the flexibility to mix and match components for a contrasting design or opt for a cohesive look with fully matching wood options.

If you require any assistance designing your shelving system please either **contact us** or use the System Ultra configurator **here**.

DIMENSIONS

72w x 22d x 200cmh

2 x Rails: 3 x 1.9d x 200cmh

4 x Shelves (including hangers): 72w x 22d x 7cmh

MATERIALS

Wooden shelves made from moulded veneer in either oiled oak or oiled walnut.

Hangers available in brass, steel, or black.
