

## System Ultra, Configuration D

Designer: **Poul Cadovius**

Manufacturer: **DK3**

£2,640

## DESCRIPTION

**System Ultra, Configuration D** by **Poul Cadovius** for **DK3**.

In 1957, Poul Cadovius introduced the System Ultra, a progression from his iconic Royal Shelving system. This storage solution maximises space by elevating furniture from the floor to the walls.

The system's standout feature is its slender shelves, showcasing a refined wave-shaped edge profile. These shelves attach to the rails through hangers, available in brass, steel, or black options.

This configuration comprises four wall-mounted rails and twelve shelves with a 22-inch diameter. You have the flexibility to personalise the design, either by mixing and matching components for a contrasting style or choosing a cohesive look with fully matching wood options.

If you require any assistance designing your shelving system please either **contact us** or use the System Ultra configurator **here**.

## DIMENSIONS

216w x 22d x 200cmh4 x Rails: 3w x 1.9d x 200cmh  
12 x Shelves (including hangers): 72w x 22d x 7cmh

## MATERIALS
