

System Ultra | Shelves

Designer: **Poul Cadovius**

Manufacturer: **DK3**

£106

DESCRIPTION

System Ultra | Shelves by **Poul Cadovius** for **DK3**.

Following the design of the iconic Royal Shelving system, in 1957, Poul Cadovius introduced the System Ultra. This innovative storage solution maximised space by elevating furniture from the floor to the walls, creating a more expansive room.

The system's defining feature is its slender shelves, which boast a distinctive wave-like design, that connect to the rails through hangers in brass and coloured steel options.

The System Ultra comprises wall-mounted rails, shelves, cabinets and metal hangers. These components come in various colours and sizes, providing flexibility for customising your preferred arrangement and the potential for future expansion or reconfiguration.

Please note: pricing example is for 1 shelf with 2 hangers only.

Rails, cupboard and metal shelves are sold separately. Please see the related product section below.

If you require any assistance designing your shelving system please either **contact us** or use the System Ultra configurator **here**.

DIMENSIONS

Shelves 22: 72w x 22d x 7cmh

Shelves 35: 72w x 25d x 7cmh
