

Plateau coffee table

Designer: **Soren Rose**

Manufacturer: **DK3**

~~Was £1,610~~ Now £1,368

DESCRIPTION

Plateau coffee table by **Søren Rose** for **DK3**.

Plateau is a simple and elegant coffee table with a circular tabletop made of solid wood, celebrating the natural grain and qualities of this material.

Designer Søren Rose notes that "during the design process we kept removing details from the original design and ended up with a very minimalist yet sophisticated side table."

DK3 designs are made from Southern German oak which is approximately 140 years old when the trees are felled. The soil conditions and altitude where these trees grow ensures that the resulting timber is a comparatively pale in colour.

There are three heights available: low 35cm, medium 45cm and high 50cm. Both medium and low frames are available with small or large tabletops.
