DESCRIPTION

Epic coffee table by **GamFratesi** for **Gubi**.

The Epic collection consists of two sculptural designs with a name taken from the epic poems of this era. Inspired by the Greek columns and Roman architecture of antiquity, these tables use two prominent shapes, a circle to make the tabletop and the hexagonal base it sits on.

The tables are crafted using travertine stone from Italy. The majestic size of these objects utilises the true potential of the material showing the distinctive organic hues, changing veins and natural patina of travertine.
