DESCRIPTION

Filigrana pendant light by **Sebastian Wrong** for **Established + Sons**.

"The slightly spiral, candy cane effect evokes childhood and memory. So I have applied this to core basic shapes with very little design around it. Each light is unique because of the way it is made. It's a celebration of colour and technique." *Sebastian Wrong*.

The Filigrana pendant light blends age-old manufacturing techniques with a contemporary sensibility, resulting in a wholly individual design.

Made by hand in a centuries-old process, coloured strips of rolled glass are added to the already molten glass of the shade before being blown. This intricate process results in a candy-cane effect through the glass, with a filigree of colour set against an acid-etched matt opal background. The great care and attention that goes into each light ensure that each is truly unique.

The Filigrana pendant light is available in four sizes and three colourways: black, red, or white.
