DESCRIPTION

Filigrana T2 table light by **Sebastian Wrong** for **Established + Sons**.

"The slightly spiral, candy cane effect evokes childhood and memory. So I have applied this to core basic shapes with very little design around it. Each light is unique because of the way it is made. It's a celebration of colour and technique." *Sebastian Wrong*.

The Filigrana T2 table light blends age-old manufacturing techniques with a contemporary sensibility, resulting in a wholly individual design. The design features acid-etched hand-blown glass, silicone, acrylic and steel fixings, powder-coated aluminium base.

Made by hand in a centuries-old process, coloured strips of rolled glass are added to the already molten glass of the shade before being blown. This intricate process results in a candy-cane effect through the glass, with a filigree of colour set against an acid-etched matt opal background. The great care and attention that goes into each light ensure that each is truly unique.

Available in Black, Red, Tobacco, White and Blue finish.
