

Superloon Floor Light

Designer: **Jasper Morrison**

Manufacturer: **Flos**

£3,980

DESCRIPTION

Superloon Floor Light by **Jasper Morrison** for **Flos**.

Designed in 2015, the Superloon floor light is inspired by the most elemental of lighting sources - the moon. A ring of LEDs set into the edge of a flat disc of translucent white PMMA generates a soft ambient light which may be adjusted in intensity and temperature as desired.

Jasper Morrison describes the evolution of his design: "A couple of years ago Piero Gandini showed me a new technology which consists of a ring of LEDs that send light sideways into the edge of a composite disc of translucent white material which, when lit, appears to be a flat white disc. Superloon is the answer to the question of what to do with this intriguing technology."

The diffuser is held in a gyroscopic axis that allows the light source to be rotated through 360° for optimum flexibility.

DIMENSIONS

72.3w x 197.2cmh

Diffuser: 75.4cm diameter

MATERIALS

The supporting structure is a minimal aluminium frame available in white or black powder-coated or chrome-plated finish.

Light source: Edge Lighting LED 2200/2800K 2716lm CRI80 - 45W.

IP20.

Please note: This is a CE-approved product and should only be used in countries that accept and adhere to this standard. If used in other countries, it will be the sole responsibility, risk and liability of the customer.
