

Arrangements Pendant

Designer: **Michael Anastassiades**

Manufacturer: **Flos**

£570

DESCRIPTION

Arrangements Pendant by **Michael Anastassiades** for **Flos**.

Inspired by the parallels between lighting and jewellery, Arrangements is a modular light system where geometric light elements can be configured in a variety of unique compositions. Each unit attaches to the previous one, gracefully hanging as part of a growing chain.

Michael Anastassiades explains, "I'm challenged by how the delicate nature of something small can be translated spatially and still manage to retain its preciousness in the way materials are presented. It is no coincidence that the word 'pendant' has a double meaning. Existing both as a piece of jewellery that hangs from a chain worn around the neck, and a light designed to hang from the ceiling".

Designed in 2018, the Pendants are available in the following geometric forms: Line, Broken line, Round small, Round medium, Round large, Square small, Square large, Drop up and Dropdown.

Ceiling rose available in two sizes, small or big.

250cm cable included.

Use the **Arrangements configurator** or **contact us** to help design your ideal lighting composition.

See different configurations under 'More Products' below.

Light specifications are listed in the product image.
