

Belt Fabric Suspension Light, 2022

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Flos**

£3,190

DESCRIPTION

Belt Fabric suspension light by **Ronan and Erwan Bouroullec** for **Flos**.

Initially conceived in leather, the Bouroullec brothers have expanded on the original design of the Belt light by introducing it in a brand-new textured fabric.

A marriage of textile with LED lighting, the Belt is a suspended, sinuous installation that explores the balance between softness and rigidity. An unlikely but harmonious combination, the light is controlled by fabric straps, with some supporting the weight, others carrying electricity and the rest containing light.

Whether displayed in the hallway or hung over your dining table, the Belt light is guaranteed to add a contemporary feel to any space.

DIMENSIONS

200w x 150cmh

MATERIALS

Extruded aluminium covered with recyclable fabric.
