

Céramique Down

Designer: **Ronan Bouroullec**

Manufacturer: **Flos**

£769

DESCRIPTION

Céramique Down by **Ronan Bouroullec** for **Flos**.

Designed by Ronan Bouroullec in 2023, the Céramique collection features three modern lamps crafted from a single terracotta body. Each lamp comprises a base, stem, and cap with a fixed, non-adjustable diffuser in three different positions: up, down and to the side. The Down version of the lamp directs the light downwards, making it ideal as a reading or table lamp.

Bouroullec chose to work with ceramics for this collection as a tribute to traditional craftwork. Each piece is meticulously handmade, showcasing the artisan's attention to detail and craftsmanship.

The lamp, available in three colours, is complete with a lead-free lacquered crystalline finish, accentuating its handcrafted surface.

Céramique also marks Flos's first venture into the world of ceramics.

DIMENSIONS

22dia x 50.4cmh

MATERIALS

Crafted from ceramic and polycarbonate.

Light source (not included): 8W 740lm CRI>80 220-240V.

Dimmer integrated on the cord.
