

C ramique Up

Designer: **Ronan Bouroullec**

Manufacturer: **Flos**

£769

DESCRIPTION

C ramique Up by **Ronan Bouroullec** for **Flos**.

In 2023, Ronan Bouroullec designed the C ramique collection, featuring three modern lamps crafted from a single terracotta body. Each lamp comprises a base, stem, and cap with a fixed, non-adjustable diffuser in three different positions: up, down and to the side. The Up version emanates comfortable and soft light, perfect for creating indirect ambient lighting.

Bouroullec chose ceramic for this collection to tribute traditional craftwork, expressing his commitment to this medium's ongoing evolution and preservation. Every piece in the collection is meticulously handmade, showcasing the artisan's attention to detail and craftsmanship.

C ramique also marks Flos's first venture into the world of ceramics.

The lamp, available in three colours, is complete with a lead-free lacquered crystalline finish, accentuating its handcrafted surface.

DIMENSIONS

22dia x 50.4cmh

MATERIALS

Crafted from ceramic and polycarbonate.

Light source (not included): 8W 740lm CRI>80 220-240V.

Dimmer integrated on the cord.
