

Plan Table, Modular

Designer: **Barber Osgerby**

Manufacturer: **Fredericia**

£4,406

DESCRIPTION

Plan Table, Modular by **Barber Osgerby** for **Fredericia**

Discover the flexibility of the 2022 Plan Table Modular, a highly adaptable table system perfect for collaborative workspaces, conference rooms, and dining areas. With its modular design, tables can be easily configured by adding tabletops and leg gates, allowing for customization to fit any interior design project. Choose from eight different modules to create a table with a length customizable between 100/120 x, giving you the freedom to build a table that meets your specific needs.

Also available as an extendable table or in fixed size to suit your unique needs and space requirements. Please view the complete Plan Table collection in the Product Range below.

Note: The image shown is for configuration E. Please view the Configurations pdf in the Product Downloads section for available configurations.

Configuration A: 260w x 100d x 73cmh
Configuration B: 260w x 120d x 73cmh
Configuration C: 320w x 100d x 73cmh
Configuration D: 320w x 120d x 73cmh
Configuration E: 380w x 100d x 73cmh
Configuration F: 380w x 120d x 73cmh
Configuration G: 440w x 100d x 73cmh
Configuration H: 440w x 120d x 73cmh
Configuration J: 500w x 120d x 73cmh
Configuration K: 560w x 100d x 73cmh
Configuration L: 560w x 120d x 73cmh
Configuration M: 500w x 100d x 73cmh

MATERIALS

The table features a base made of tubular steel that is available in a brushed or powder-coated finish. The tabletop is available in three different materials: nano laminate, Really textile, or solid wood. Really Textile Tabletop is a durable circular material designed for all horizontal applications. It is crafted from end-of-life cotton and wool and is 100% recyclable.

Plastic glides are used for mounting, with no option for felt glides.

A cable management set is provided, including a cut-out for cables. Cables can be routed through the base leg and out through the plastic glider that comes with the Cable management set.

Cover for the cut-out hole is available separately. Please enquire for more details.

All wood from Fredericia comes from responsibly managed FSC forests, where no more trees are felled than the forest can reproduce naturally.
