

BM29 Shelf

Designer: **Børge Mogensen**

Manufacturer: **Fredericia**

£1,090

DESCRIPTION

BM29 Shelf by **Børge Mogensen** for **Fredericia**.

Fredericia is reintroducing Børge Mogensen's BM29 shelf, originally designed in 1956, after nearly seventy years. This elegant and simplistic design, handmade in Denmark, remains as relevant today as it was back then.

Børge Mogensen created the BM29 shelf in 1956, showcasing it at the Furniture Fair in Fredericia and later at the Cabinetmakers' Guild Furniture Exhibition that same year. This shelf design marked a significant milestone for Fredericia, captivating attention with its functional and timeless appearance. Upon closer inspection, its discreet details, which can be found in several of Mogensen's other designs, revealed a particular subtlety.

The versatility of the BM29 shelf adds a cosy ambience to any room in your home. It offers a choice of four different sizes, allowing you to create a simple two-shelf arrangement or a complete wall of shelves. Additionally, the two models feature a narrow desk shelf, providing a discreet and creative workspace for small home offices.

Crafted from furniture boards with veneered surfaces, these shelves showcase the slim, elegant, and sturdy characteristics achieved through an age-old technique. Delicate shelf brackets maintain the horizontal orientation of the shelves, while the brackets themselves are skillfully crafted from solid wood and discreetly affixed to the wall

using brass screws. The BM29 shelf is handmade in Denmark and available in oak and walnut finishes treated with a matte lacquer.

DIMENSIONS

Model 2921 (1 compartment, 2 shelves): 77.5w x 26d x 61cmh

Model 2901 (1 compartment, 3 shelves & desk): 77.5w x 43d x 134cmh

Model 2920 (2 compartments, 2 shelves): 148.5w x 26d x 61cmh

Model 2900 (2 compartments, 3 shelves & desk): 148.5w x 43d x 134cmh

MATERIALS

Rails and brackets are solid wood while the shelves are veneer. The shelves are mounted on the rails and brackets using screws. The rails are mounted to the wall with the keyhole fittings and screws. Brass screws for mounting of shelves to rails and to the wall is included.

Raw plugs are not included as it depends on the specific type of wall. Max load capacity for the shelf is 10 kg per shelf, where the composition of the wall and the mounting of the module allow this. The weight should be distributed evenly.

Made from premium selection of wood sourced responsibly and locally to help reduce environmental impact.
