

Lynderup Chair

Designer: **Børge Mogensen**

Manufacturer: **Fredericia**

£427

DESCRIPTION

Lynderup Chair by **Børge Mogensen** for **Fredericia**.

Designed in 1954 by the Danish designer, Børge Mogensen, the Lynderup Chair is a timeless seat that has been meticulously crafted from FSC certified materials. Named after the designer's beloved farm, the chair which only existed in Mogensen's sketchbook became a reality this year.

The chair features a tubular metal frame with a plywood seat covering the entire width of the chair, adding to the comfortability and flexibility. The plywood used for the seat and backrest is made from FSC-certified wood. The Lynderup Chair has been awarded the EU Ecolabel.

The chair can be neatly stacked, making it ideal for small and large multi-use spaces.

DIMENSIONS

54w x 50d x 46/77cmh

MATERIALS

The Lynderup chair is available in two metal frame finishes, black lacquered or chrome.

The seat is available in four wood finishes: deep red ash, black ash, lacquered oak and lacquered walnut.

All wood from Fredericia comes from responsibly managed FSC forests, where no more trees are felled than the forest can reproduce naturally.
