

Piloti Square Table

Designer: **Hugo Passos**

Manufacturer: **Fredericia**

£897

DESCRIPTION

Piloti Square Table by **Hugo Passos** for **Fredericia**.

Piloti is a streamlined and elegant family of solid oak side tables. The subtle detailing of the design creates an impression of lightness, paring the table back to its simplest elements, while the use of solid oak as a material ensures robust stability.

"My intention was to create a table collection that, at first glance, looks extremely simple," says designer Hugo Passos. "The image of a single line, floating above four legs soon became the goal."

New for 2017, the Piloti table is now available in a square shaped model in two sizes. Each size comes in a choice of two differing heights, allowing tables to be combined as a nest.

This versatile table suits a broad range of uses and settings. Ideal for use as a side table, sofa table or bedside table, it is also robust and durable enough to suit contract use in hotel lobbies or offices.

Table legs unscrew to aid storage and transport, and the design ensures that tables are easy to assemble.

DIMENSIONS

Medium 63w x 63d x 35/41cmh

Large 75w x 75d x 35/41cmh

MATERIALS

Available in solid oak in the following finishes: soaped, oiled, light oil, lacquered, black lacquered and smoked oiled.

All wood from Fredericia comes from responsibly managed FSC forests, where no more trees are felled than the forest can reproduce naturally.

Please see the product downloads section for PDF's outlining wood finishes.
