

Post Table

Designer: **Cecilie Manz**

Manufacturer: **Fredericia**

£3,613.33

DESCRIPTION

Post Table by **Cecilie Manz** for **Fredericia**.

The Post Table illustrates the concept of eliminating anything unnecessarily extra to solely focus on the essential. A classic and simple design with expressions of modern minimalism, the table is made from beautiful solid oak. With three tabletop lengths available, each offers generous leg room due to the vast space between the legs.

Similar to the Post Chairs, the minimalist design makes the table suitable for dining, hospitality, or corporate settings alike. Cecilie Manz's design process starts with an examination of the precise purpose for a piece of a furniture, and stripping the concept to only what is completely necessary - allowing a functional and purposeful form to emerge.
