

Pato 4 leg armchair, 2012

Designer: **Welling Ludvik**

Manufacturer: **Fredericia**

~~Was £381~~ Now £323

DESCRIPTION

Pato 4 leg stackable armchair by **Welling / Ludvik** for **Fredericia**.

Versatile shell chair in polypropylene with a range of steel frames and upholstery. Designed by Welling / Ludvik in 2012 as a highly advanced evolution of a modern furniture staple: the stackable plastic chair. A silky textured surface and bevelled edge adds a visual lightness and detailed craftsmanship to this industrial standard.

Pato meets Fredericia's 100-year-old tradition of crafted quality to industrial products. The pato shells have a carefully developed structure with a soft yet wear-and-tear resistant surface. Designers Welling / Ludvik have created a highly intelligent design where functional details add to a distinct expression and sublime usability.

The Pato 4 leg stackable armchair is comprised of pure recycled polypropylene. Consequently, every chair in the series can be recycled endlessly. To explore the environmentally friendly Pato collection please see the product range below.

DIMENSIONS

57w x 52d x 46.5/79cmh

MATERIALS

The Pato 4 leg armchair is produced from both post-industrial and post-consumer polypropylene and steel. Every part is 100% recyclable and renewable.

The Pato can be upholstered in a wide range of fabrics and leathers selected by Fredericia.

All Fredericia leather comes from well-known, certified sources, where professionals are trained to respect animals.

Please refer to the PDFs in the download section for details on the available upholsteries.
