

Pato 4 Leg Chair

Designer: **Welling Ludvik**

Manufacturer: **Fredericia**

£293

DESCRIPTION

Pato four leg stackable chair by Welling / Ludvik for Fredericia.

Versatile shell chair in polypropylene with a range of steel frames and upholstery. Designed by Welling / Ludvik in 2012 as a highly advanced evolution of a modern furniture staple: the stackable plastic chair. A silky textured surface and bevelled edge adds visual lightness and detailed craftsmanship to this industrial standard.

Pato meets Fredericia's 100 year-old tradition of crafted quality to industrial products. The pato shells have a carefully developed structure with a soft, yet wear and tear resistant surface. Designers Welling / Ludvik have created a highly intelligent design where functional details add to a distinct expression and sublime usability.

The Pato stackable chair is comprised of pure recycled polypropylene. Consequently, every chair in the series can be recycled endlessly. To explore the environmental friendly Pato collection please see the product range below.

DIMENSIONS

55w x 52d x 46.5/79cmh

MATERIALS

The Pato four leg stackable chair is produced from both post-industrial and post-consumer polypropylene and steel. Every part is 100% recyclable and renewable.

All Fredericia leather comes from well-known, certified sources, where professionals are trained to respect animals.

Please see the Product Download section to view the Upholstery PDF.
