

Pato sledge barstool, 2012

Designer: **Welling Ludvik**

Manufacturer: **Fredericia**

~~Was £312~~ Now £265.20

DESCRIPTION

Pato bar stool by Welling / Ludvik for Fredericia.

Versatile shell bar stool in polypropylene with a range of steel frames and upholstery. A silky textured surface and bevelled edge add a visual lightness and detailed craftsmanship to this industrial standard.

Pato meets Fredericia's 100-year-old tradition of bringing crafted quality to industrial products. The pato shells have a carefully developed structure with a soft yet wear-and-tear resistant surface. Designers Welling / Ludvik have created a highly intelligent design where functional details add to a distinct expression and sublime usability.

The Pato bar stool is comprised of pure recycled polypropylene. Consequently, every chair in the series can be recycled endlessly. To explore the environmentally friendly Pato collection please see the product range below.

Please note: Pricing is for frame in black steel.

DIMENSIONS

47w x 50d x 77/110cmh (seat height 78cm on upholstered versions)

MATERIALS

The Pato bar stool is produced from both post-industrial and post-consumer polypropylene and steel. Every part is 100% recyclable and renewable.

Seat available un-upholstered in solid polypropylene, with an upholstered seat, or fully upholstered in fabrics and leathers of the collection. Please refer to the PDFs in the download section for details on the available upholsteries. Sample fabric can be viewed at our showroom and shop.
