

Series 7 Chair Wood

Designer: **Arne Jacobsen**

Manufacturer: **Fritz Hansen**

£579

DESCRIPTION

3107 Series 7 Stackable Wood Chair by Arne Jacobsen for Fritz Hansen.

The Series 7 Chair, created by Arne Jacobsen in 1955, is one of the most well-known and cherished seats produced by Fritz Hansen. It was initially designed for the H55 exhibition in Sweden and was crafted using an innovative pressure-moulding technique that involved using nine layers of wood veneer in different configurations. The resulting chair is not only durable and sturdy but also stackable.

This iconic design, characterised by its hourglass shape, is available in ten different wood finishes, allowing you to tailor the seat to suit your space.

DIMENSIONS

50w x 52d x 46/82cmh

MATERIALS

It has a seat shell made of pressure moulded, sliced veneer. The seat shell comes in natural veneer.

Base in chromed steel or powder coated in the following finishes: dark brown, silver grey, warm graphite, black and nine grey.

Stackable.

Also available with upholstered front, full upholstery and with coloured seat. please see the 'More products in the range' section below or contact us for more information.
