Cleaning and maintenance:

To keep your teak furniture looking its best, clean it regularly with a wood cleaner and a soft bristle brush, and rinse it with water. To maintain its original honey-golden hue, apply a furniture oil on a regular basis. Alternatively, let it patinate naturally and turn into a beautiful silvery grey over time.

Winter storage:

No need to worry about storing your teak furniture during the winter, as it can withstand all kinds of weather throughout the year. However, if possible, it's recommended to keep it in an unheated room during the winter months.

Indoor use:

Teak wood furniture is also suitable for indoor use. Please remember to retighten the screws every once in a while to keep it stable and secure.
