

Fronda stool

Designer: **Sam Hecht and Kim Colin**

Manufacturer: **Mattiazzi**

£515

DESCRIPTION

Fronda stool by **Sam Hecht + Kim Colin** for **Mattiazzi**.

The Fronda stool is a sculptural piece with function, a seating solution that also houses storage. It features a single wood shelf beneath the steel seat to accommodate personal items. The Fronda stool is part of the first Mattiazzi collection which uses wood for the structure and metal for the seat.

“The metal seat takes Mattiazzi to a new place – an experiment that has some of the qualities of those beautiful Japanese copper and cypress washing buckets. What’s next is to see where FRONDA can live.”
Sam Hecht

“It’s a very practical piece for how we might work or eat at a long table, when we also need a place to put something we carry.”
Kim Colin

DIMENSIONS

39.5w x 48.2d x 46.3/51.7cmh

MATERIALS

Pine of European origin and legal wood cutting.

Steel seat.

Please see product specification pdf for further details.
