DESCRIPTION

Guna Charpoy Cushions by **Chiara Andreatti** for **Gervasoni**.

Introducing the remarkable Guna range—an outdoor furniture collection by the talented designer, Chiara Andreatti. This extraordinary ensemble comprises carpets, charpoys, cushions, and coffee tables, all thoughtfully infused with a captivating multi-ethnic flair.

The term "Guna," borrowed from Sanskrit, embodies the concept of "energy that envelops all things." This profound name perfectly encapsulates the essence of the collection—a harmonious interweaving of yarns, stitches, and textures, drawing inspiration from diverse cultures and fostering meaningful connections.

Among the collection highlights are the Guna Charpoy Cushions. These weighted cushions boast synthetic padding and a water repellent polyester removable cover. Designed to complement the Guna Charpoy, a reimagined traditional low Indian bed by Chiara Andreatti for Gervasoni, the cushion is crafted with fire retardant foam and interliner. It beautifully complements the colourful nautical ropes of the Guna Charpoy and the treated Iroko wood structure. The Guna Charpoy Cushions are available in two shapes.
