DESCRIPTION

Brise Coffee Table by **Federica Biasi** for **Gervasoni**.

Brise, derived from the French word for 'breeze,' seeks to transport us to those delightful moments when a gentle gust of wind alleviates the summer's heat, allowing us to savor moments of relaxation outdoors. A perfect companion for joyful and carefree occasions, this vibrant collection exudes elegance and effervescence, drawing inspiration from the Art Nouveau era and its floral motifs, characterized by ornate and decorative lines that pay homage to nature, fostering a harmonious connection with the outdoors.

The Brise coffee table collection comprises round tables featuring cylindrical bases and portable tops made of Millgres ceramic, available in a variety of sizes and heights. The palette of lively colours adds dynamism to the collection, including not only red and white cream colours but also a refreshing shade of blue.
