

## Glerups Slip-ons, Grey

Designer: **Nanny Glerups**

Manufacturer: **Glerups**

£65

### DESCRIPTION

**Glerups Slip-ons, Grey** by **Nanny Glerups** for **Glerups**.

In 1993, Nanny Glerups started producing slippers made of felted wool on a small scale, simply as a hobby. Friends and family so enthusiastically received them that she expanded her operations. The design and production were developed and refined to meet an expanding demand while maintaining the craftsmanship and quality that make Glerups slippers uniquely comfortable and practical.

These slippers offer flexibility and effortless wear, allowing you to slip into them easily. Their exceptional ability to keep your feet warm and dry is owed to the wool's remarkable moisture-absorbing properties.

**Please note:** your Glerups will usually shed within the first 3-4 weeks of wear - this is normal due to the natural treatment of our wool and ensures a long-lasting, comfortable feel.

### DIMENSIONS

Available in European sizes 38, 42 and 43.

## MATERIALS

This indoor shoe is felted in 100% pure natural wool, washed in soft lime-free water. Trimmed, edged and fitted with soles of pure soft leather.

**Please note:** the leather sole may be slippery on wet or ice surfaces like tiles.

To clean your Gleups of dust, vacuum or blow them clear; for any stains, gently clean on the stain with a light wet cloth and wool soap. You may have to repeat the process a few times, but make sure that you always leave the slippers to dry before starting over again.
