

## Gradient Pill Blanket

Manufacturer: **Granite and Smoke**

£360

### DESCRIPTION

**Gradient Pill Blanket** by **Granite + Smoke**.

Designed by Granite + Smoke, the Gradient Pill Blanket features two bold, graphic motifs in shades of purple, yellow and blue. Inspired by London's brutalist architecture and modernist colours, the throw is a double-sided display of two similar striking designs.

The mid-weight blanket is expertly crafted at a 150-year-old mill in the North of England using post-consumer textile waste.

To sustain the look and finish of your throw, very light brushing in the direction of the fibre with a clothes brush is recommended.

Please note: due to the natural nature of the fibres, there may be occasional pilling over time. It is recommended to use a pilling comb to remove any fibre pills carefully.

### DIMENSIONS

175 x 150cm

## MATERIALS

Crafted from a mixture of recycled materials: 70% recycled wool (70%) and other recycled yarns (30%).

Due to the delicate nature of the textiles, the blanket is dry clean only. If there are stubborn stains, dab gently with a moist, clean cloth and press out any excess dampness; avoid rubbing as this could ruin fibres.
