DESCRIPTION

Epic coffee table by **GamFratesi** for **Gubi**.

The Epic collection consists of two sculptural designs with a name taken from the epic poems of this era. Inspired by the Greek columns and Roman architecture of antiquity, these tables use two prominent shapes, a circle to make the tabletop and the hexagonal base it sits on.

The Epic Table is a stylish and modern piece of furniture that combines classic Greek design elements with modern materials. The hexagonal column and circular shapes are cleverly combined to create a strong and efficient design that highlights the beauty of steel. The laser-cut and welded construction add to the simplicity and elegance of the table, making it a perfect addition to any home or office.

The collection is now available in three stunning lacquered steel colours. After a thorough and intense experimentation process, Gubi has developed Midnight Black, Earthy Red, and Misty Gray. These colours are sure to add a touch of elegance and sophistication to any space.
