

IOI Coffee Table

Designer: **GamFratesi**

Manufacturer: **Gubi**

£1,199

DESCRIPTION

IOI Coffee Table by **GamFratesi** for **Gubi**.

A celebration of honest Italian materiality, the IOI Coffee Table by GamFratesi for Gubi utilises solid brass, steel and travertine.

The contemporary table takes its name from the geometric Art Deco inspired details referenced in the design of the legs. Twin metal tubes are linked by a brass sphere in a 'sticks and sphere' motif, forming the letters I-O-I. The base is balanced by a heavy travertine top, offering a unique expression to each table.

Display the coffee table individually, or group several together for an elegant arrangement.
