

Matégot Dedal book shelf, 1954

Designer: **Mathieu Matégot**

Manufacturer: **Gubi**

£299

DESCRIPTION

Matégot Dedal book shelf by **Mathieu Matégot** for **Gubi**.

Mathieu Matégot's organic forms and a lightness of touch in his designs create a sense of joy. At the same time, he used groundbreaking and innovative techniques. This resulted in a complete unique aesthetic and, above all, contemporary designs.

Matégot was the first person to combine metal tubing with perforated sheet metal – “rigitulle”, a pairing that characterises his work. His most famous piece, The Nagasaki Chair, is included in the permanent exhibition at the Vitra Design Museum.

Quickship is available for some variants, please enquire for more details.

DIMENSIONS

89w x 19.5d x 48.5cmh

MATERIALS

The Matégot Dedal book shelf is made from perforated powder-coated steel plate.

Available in Soft black, Cream white, and Stone grey.
