DESCRIPTION

Daumiller Armchair by **Rainer Daumiller** for **Gubi**.

A simple chair with rigid construction and sculptural expression, the Daumiller Armchair's straightforward design language showcases Rainer Daumiller's obsession with natural materials and forms.

Constructed in sustainably sourced solid Pine wood similar to the original pieces produced by Hirtshals Sawmill in 1977, the seat and backrest of this new version are ergonomically adapted to the contours of the body, adding to the bold, retro expression of this Danish design classic.

Available in two finishes, the original golden pine evokes the earthiness of the 1970s while the darker stained pine provides a graphic statement, retaining the chair's characteristic materiality through the texture of the wood grain.
