DESCRIPTION

Dreamland by **Hæckels**.

Founded in 2012 with a mission to promote healthy and ethical products, Hæckels create simple, handcrafted products inspired by and made from natural ingredients harvested on the Kent coastline.

Experience the nostalgia of a 19th-century amusement park with Hæckels Dreamland-inspired fragrance. Infused with the rich scents of charred wood and freshly picked roses, collected on a cloudy day in February 2014, this scent will transport you to a world of ornate gardens and a heady blend of leather, tobacco, and vetiver.
