

Factor Linear Suspension Lamp

Designer: **Dimitri Bähler**

Manufacturer: **HAY**

~~Was £609~~ Now £517

DESCRIPTION

Factor Linear Suspension Lamp by **Dimitri Bähler** for **HAY**.

Designed in 2022, the Factor Linear Suspension lamp is an ingenious lamp concept from HAY. Designed by Swiss designer Dimitri Bähler, the suspension map features a tubular design with a rotatable core that can be positioned to create a personalised lit environment with either direct or indirect light using its 360-degree infinite movement feature.

Easy to assemble with a plug-and-play system, the lamp can be put together without any tools and works well as a dining table pendant lighting solution. Made from extruded aluminium, the lamp features a dimmable integrated LED light source and is available in two colour options.

The Factor Linear Suspension lamp is also available in two variants based on the user's needs. The diffused version offers a warmer, diffused light output great for creating an ambience above a dining table, over a kitchen island or in a home office. The directional version provides a cooler, more focused light that is well suited to offices, public buildings and other professional settings that require a more task-oriented lighting solution. The directional lamp

offers superb colour rendering and glare prevention, made possible by the custom glare control louver concealed inside the lamp.

DIMENSIONS
