

## AAC 12 Chair

Designer: **Hee Welling**

Manufacturer: **HAY**

£269

## DESCRIPTION

**About A Chair AAC 12 by Hee Welling for HAY.**

The idea behind the About A Chair collection was to develop a chair of conspicuous simplicity. A versatile chair which works just as well around the dining table, conference table or the canteen at the office. The ambition of the designer Hee Welling was to combine form, function, comfort, detail and aesthetics.

About A Chair is a family of chairs where all shells and frames can be combined and where diversity is possible without compromise.

## DIMENSIONS

51w x 50.5d x 46/78.5cmh

## MATERIALS

AAC 12 is a chair with FSC certified solid wood base, no armrests and a seat shell made from 100% post consumer recycled PP. Base in soaped or water-based lacquered in oak or black finish. Base also available in water-based lacquered in walnut finish.

Products made from FSC certified wood are sourced from sustainable forests with responsible management that reduces deforestation and ensures the forests' future preservation.

The low VOC (volatile organic compounds) content in the water-based variant emits significantly fewer pollutants, which makes it much more environmentally friendly, contributing to a healthier working environment and better indoor climate. Furthermore, water-based lacquer is often more durable than PU lacquer, so your wooden furniture can have a longer lifetime too.

**Note:** Quick delivery available for unupholstered AAC12 chair in matt lacquered oak base with white seat and standard gliders. Maximum quickship order quantity of 20 available.

Please view the HAY AAC 12 product fact sheet pdf for more information on specifications and finishes.

More shell colours and fabric options available, please contact us **here** to enquire for details.
