

AAC 22 Chair

Designer: **Hee Welling**

Manufacturer: **HAY**

£295

DESCRIPTION

About A Chair AAC 22 by Hee Welling for HAY.

The idea behind the About A Chair collection was to develop a chair of conspicuous simplicity. A chair which works just as well around the dining table as around a conference table, in a canteen or at the office. The ambition of designer Hee Welling has been to combine form, function, comfort, detail and aesthetics.

About A Chair is a family of chairs where all shells and frames can be combined - but where diversity is possible without perfection being compromised.

Please see the product range below for the AAC 22 available with an upholstered fixed seat cushion and/or front upholstery.

DIMENSIONS

59w x 52d x 46/79cmh

MATERIALS

AAC 22 is a chair with FSC certified solid wood base, armrests and seat shell made from 100% post consumer recycled PP. Beech plywood base with oak veneer in a water-based lacquer, black water-based lacquer or soaped finish. Also available in water-based lacquered walnut base finish.

Products made from FSC certified wood are sourced from sustainable forests with responsible management that reduces deforestation and ensures the forests' future preservation.

The low VOC (volatile organic compounds) content in the water-based variant emits significantly fewer pollutants, which makes it much more environmentally friendly, contributing to a healthier working environment and better indoor climate. Furthermore, water-based lacquer is often more durable than PU lacquer, so your wooden furniture can have a longer lifetime too.

Please view the AAC 22 specifications pdf for shell and base colour swatches and further details.
