

Hee Outdoor Dining Chair

Designer: **Hee Welling**

Manufacturer: **HAY**

£245

DESCRIPTION

Hee Outdoor Dining Chair by **Hee Welling** for **HAY**.

The philosophy behind the Hee chairs was to take an archetypical chair and perfecting it in every single detail, simplifying it and improving the usability. The starting point was to make a chair that would fit most locations - modern but not so typical of a period that it does not have a long life. There is nothing superfluous or ornamented about the chair and nothing can be removed without losing the function. The chair has a playful expression but does not let the design compromise the purpose.

The chair is stackable and electroplated before being powder-coated, and it withstands weather throughout the year making it suitable for outdoor use. Floor linking connection available, please enquire for information.
