

## Apex Table Lamp

Designer: **John Tree**

Manufacturer: **HAY**

£109

## DESCRIPTION

**Apex Table Light** by **John Tree** for **HAY**.

Drawing inspiration from the timeless Banker's Light, British designer John Tree skillfully blended iconic elements with his modern and vibrant artistic vision, resulting in the birth of the Apex Table Lamp.

Crafted from folded steel, the lamp's shades form a distinctive peaked roofline silhouette, not only lending the lamp its name but also creating a striking visual contrast against the chrome-plated bases. The lamp's circular base and angled arm harmonize gracefully with a vividly colored lampshade that boasts a 360-degree rotation capability. This ingenious feature empowers users to effortlessly adjust the direction of light to suit their specific requirements.

From serving as an efficient task illuminator on a desk to becoming a cozy reading companion on a bedside table, the Apex Table Lamp emerges as a practical and versatile lighting solution for a myriad of spaces and purposes.
