DESCRIPTION

Pao Glass Pendant Light by **Naoto Fukasawa** for **HAY**.

The elegant contemporary Pao pendants were named after the traditional Mongolian Pao tents. Reminiscent of their sloped shape and the cosy inviting community they accommodate, Fukasawa set out to encapsulate the same atmospheric warmth in the Pao Glass Pendant.

Pao draws on Fukasawa's aesthetic of elegant simplicity; creating an everyday object that draws on design values existing in the natural world. Nestled within the opal glass shade is a custom LED light source and diffuser, offering a functional output of light, suitable for a wide range of spaces and uses in domestic and corporate environments.
