

Can Lounge Chair

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **HAY**

~~Was £1,799~~ Now £1,529

DESCRIPTION

Can Lounge Chair by **Ronan + Erwan Bouroullec** for **HAY**.

Design duo Ronan and Erwan Bouroullec sought to reinvigorate the whole idea of a sofa. The Can range strips away the traditional sofa's inherently complicated form to create something simple, relaxed and accessible.

The Can is a lightweight, customisable self-assembly series. The sides and back of the seat are formed from panels of material stretched across the supporting tubular steel framework for an elegant and comfortable design.

"There are many times when people just can't use the sofa, afraid they are going to drip wine, or spill something. So the name 'Can' is the idea that 'you can,' 'you can make it,' just don't be afraid." - Erwan Bouroullec

The lounge chair comes flat-packed and can be easily assembled at home. Available in various muted finishes, also comes as two or three-seater versions. Please see 'Product range' below.

DIMENSIONS

MATERIALS

Lounge chair formed of three basic elements; a frame assembled from steel tubing, a set of foam and feather cushions upholstered in fabric and leather of the collection with black leather piping, and a strong canvas sling to provide rigidity and form.

Powder coated steel frame available in black and chrome. Canvas sling available in black and natural.
