DESCRIPTION

Passerelle Table by **Ronan + Erwan Bouroullec** for **HAY**.

The Passerelle is a multi-functional table available in different sizes, colours and finishes, suitable for use as a kitchen, dining table, or meeting table. Inspired by the clean aesthetics of classic Shaker furniture, the table shares the same simplicity and quality in a modern context.

The table features a well-balanced, flat-packed construction with solid wooden edges and top surface in veneer. The table is light and easy to move, made possible by the core made of Lisocore® – an advanced, high-quality material with excellent strength. The frame is equally strong and functional, with a solid wooden frame and aluminium and steel crossbar that fortifies and stabilises the table.

The table is also available with laminate or linoleum top.
