Designed by Portuguese designer Rui Pereira, the Barro Oval Dish is part of a broader tableware collection that invites the warmth and simplicity of terracotta to the table. "Barro," which translates to 'red clay,' reflects Pereira's admiration for the traditional uses of this ancient material.

Available in two sizes, these oval-shaped dishes are crafted in Portugal from durable terracotta and finished with a natural high-gloss glaze. The rolled edges, adorned with hand-painted stripes, enhance their rustic charm.

These versatile dishes can be used both in the oven and as decorative serving pieces.
