

Bernard chair

Designer: **Shane Schneck**

Manufacturer: **HAY**

£1,049

DESCRIPTION

Bernard chair by **Shane Schneck** for **HAY**.

The Bernard lounge chair pairs a solid timber frame with sling-like upholstery that slips over the frame in saddle leather or industrial-strength marine canvas. The timber frame is a simple typology, with subtle detailing and a timeless outline.

The leather is purposefully left untreated to acquire a rich patina similar to classic mid-century designs, while the canvas option provides a range of colours to allow an easy refresh to the chair's aesthetic.

DIMENSIONS

77w x 62d x 40/73cm

MATERIALS

Available in four different water-based lacquered FSC certified wood frame finishes: beige grey painted solid beech, deep black painted solid oak, hunter green painted solid beech and lacquered solid oak.

The canvas seat cover is available in black, red or green (100% cotton) or raw canvas (50% sunbrella acrylic, 50% recycled sunbrella acrylic). The saddle leather covers are available in Nature, Brandy or Black.

Please note: The aniline Nature leather will change its patina over time, starting a light tan before turning pale pink and finally becoming a light brown tan. Both Black and Brandy semi-aniline types of leather are slightly pigmented and will become slightly lighter over time.

Comes with felt gliders.
