

Apollo Chandelier

Designer: **Studio 0405**

Manufacturer: **HAY**

£1,299

DESCRIPTION

Apollo Chandelier by **Studio 0405** for **HAY**.

Designed by STUDIO 0405, the Apollo Chandelier reimagines the timeless lamp archetype with a modern twist. It retains the fundamental structural elements of the traditional chandelier but presents them in a sculptural and utilitarian manner.

The chandelier features a collection of opal glass shades, each expertly mouth-blown, perched upon gracefully curved tubular arms. This design creates an intriguing interplay between the meticulously handcrafted organic shades and the industrial aesthetic of anodized aluminium tubing.

As a captivating centerpiece, the Apollo Chandelier is equally at home in various public and private settings. It is available in two size variations: a six-arm option and a twelve-arm.

DIMENSIONS

6 arms: Ø74.5 x 36cmh
