

Apollo Wall Sconce

Designer: **Studio 0405**

Manufacturer: **HAY**

£319

DESCRIPTION

Apollo Wall Sconce by **Studio 0405** for **HAY**.

Designed by Studio 0405, the Apollo Wall Sconce reimagines a timeless lamp design with a modern twist. It retains the fundamental structural elements of the classic sconce but transforms them into a striking and practical work of art.

The fixture consists of three hand-blown opal glass shades gracefully perched atop curved tubular arms, resulting in a captivating interplay between the artisanal, organically shaped shades and the sleek anodized aluminium tubing.

Once elegantly affixed to the wall, the Apollo Wall Sconce serves as a versatile choice, capable of accentuating specific areas or imbuing a diverse array of private and public spaces with a distinctive ambience.
