DESCRIPTION

Parade Table Lamp by **Viola Heyn-Johnsen + Jonas Trampedach** for **HAY**.

The Parade Lamp series was brought to life by the Danish husband-and-wife designer duo Viola Heyn-Johnsen and Jonas Trampedach.

Enticed to create a light that was both atmospheric and sculptural, the couple designed a collection of lamps with shared characteristics: a square base and an arched top made of coloured glass.

Available in an assortment of sizes and colours, the geometric shapes of the series offer different expressions depending on the angles they are viewed. When multiple lights are placed together, the lamps complement each other, creating a harmonious and coherent effect.

When not in use as a light, the lamps sculptural forms allow them to continue to serve as a display piece when switched off.
