

Heracleum III pendant light, 2010

Designer: **Bertjan Pot**

Manufacturer: **Moooi**

£2,536

DESCRIPTION

Heracleum III pendant light by **Bertjan Pot** for **Moooi**.

Decorative LED lamp from Moooi inspired by the Heracleum Plant.

'Leaves' play out from 'stems' creating a very technical but natural structure. This pendant light design is created by using the technique of coating conductive layers which would not be possible with normal wires.

The Heracleum 'leaves' are not frozen in one position. They can be freely re-positioned by rotating them around their stem. Heracleum includes a new LED which is much more efficient while providing unique and sparkling illumination.
