DESCRIPTION

Hiroshima Upholstered armchair by **Naoto Fukasawa** for **Maruni**.

The Hiroshima series was released in 2008. Designed by Naoto Fukasawa, the aim was to create furniture that combines robustness with designs that will remain fresh and vital.

The Hiroshima Upholstered armchair appears to be carved out of solid wood and features gentle curves from the arms through the back.

DIMENSIONS

56w x 53d x 45.5/68/79cmh

MATERIALS

The wood used in this product is obtained from beech trees in Europe and oak or walnut trees in North America that are managed and felled in a planned manner.

The armchair seat is made of a flame-resistant polypropylene injection sheet combined with moulded urethane.

The coating, glue, plywood and MDF used here reduce VOC emissions in manufacturing processes and finished products.

The fabric covers on these chairs can be removed for dry cleaning. For leather chairs, the leather is affixed to the chair so it cannot be removed.
