Manufacturer: **Maruni**

~~Was £1,135~~ Now £964

DESCRIPTION

mHiroshima Wooden Armchair by Naoto Fukasawa for Maruni.

The Hiroshima series was released in 2008. Designed by Naoto Fukasawa, the aim was to create furniture that combines robustness with designs that will remain fresh and vital.

The Hiroshima Wooden armchair appears to be carved out of solid wood and features gentle curves from the arms through the back.

The Hiroshima Wooden Armchair, high, in oak utherane whitish, oak oiled and walnut urethane clear are available for quickship only.

DIMENSIONS

Low: 56w x 53d x 43/65.5/76.5cmh

High: 56w x 53d x 45.5/68/79cmh

MATERIALS

The wood used in this product is obtained from beech trees in Europe. The ash, oak, and walnut are sourced from trees in North America that are managed and felled in a planned manner.

See the downloadable sheet for samples of Maruni wood finishes.

The coating, glue, plywood and MDF used here reduce VOC emissions in manufacturing processes and finished products.
