

## Improvisación Tapestry, 2023

Manufacturer: **Nanimarquina**

£818

### DESCRIPTION

**Improvisación Tapestry** by **Gian Padilla** for **Nanimarquina**.

Gian Padilla's Improvisación tapestry is a tribute to the ancient art of weaving, where women would create textiles without a planned design. Inspired by Jazz, the tapestry is weaved spontaneously, with the weft representing the melody and the warp depicting improvised solos.

Despite only using three colours, a range of greys and neutral tones, the tapestry uses its simple palette to create new graphic forms.

Crafted from Afghan wool, a material that plays a part in its authentic and rustic appearance, the wall hanging invites warmth to any room it is positioned.

### DIMENSIONS

95 x 125cm

### MATERIALS

Hand loomed from 100% handspun Afghan wool.
